

Name _____ Grade and Change _____

Explorers of the New World PowerPoint Requirements

After you have completed your Internet research on an important explorer of the New World, you will use the information you gathered to create a PowerPoint presentation to share with the rest of your class. Since each explorer led a different life and since each of you has your own style of writing and presentation, the PowerPoint presentations will not all be the same.

However, each presentation must meet these requirements:

- Title slide with your title, name, and date on it.
- Bibliography slide with the Web sites you used listed on it
- Minimum of 6 total slides
- Information on your explorer and his expedition must include:
 - Sponsor
 - Dates
 - Purpose
 - Areas discovered, conquered, or explored
 - Most important contribution to knowledge of our world. Why is your explorer remembered?
- A picture of your explorer
- A map of the route your explorer traveled.

You can include additional slides, additional pictures, Word Art, and clip art. You may not use a Design Template for your presentation. Make your own backgrounds. You use transitions, sounds, and custom animation if you feel these things will make your presentation better.

Some ideas for slides include:

- Early Life
- Purpose, dates, and sponsor of expedition
- Vessels and voyage routes
- Difficulties encountered
- Areas discovered, explored, or conquered
- Accomplishments
- Treatment of Native peoples
- Additional voyages or expeditions
- Interesting facts
- Importance to world history
