

Name _____ Grade and Change _____

Worksheet for PowerPoint on Five Themes of Geography

For this assignment you will choose a place you know pretty well - your house, your neighborhood, your school, Delhi, Cincinnati, or Ohio are some ideas. First you will make the slides that are printed in bold, copying my information onto your slide. Then you will make slides about your own place for each theme. You will write the information for these slides yourself on this worksheet.

Slide 1: Title Slide. Also include your name and date.

(Your Place) and the Five Themes of Geography

Your Place _____

Slide 2: Location

- **absolute - latitude and longitude of a place or a street address**
- **relative - describing landmarks that are near a place using direction, distance, and/or time**

Slide 3: Describe the absolute location of your place.

Describe the relative location of your place.

Slide 4: Place

- **physical features - landforms, weather, climate, and vegetation of your place**
- **human features - populations, religion, culture, and language**

Slide 5: Describe the physical features of your place.

Describe the human features of your place.

Slide 6: Human-Environment Interaction

- people adapt to the environment
- people change the environment

Slide 7: Describe how people have adapted to or changed the environment of your place.

Slide 8: Movement

- travel from place to place
- exchange of goods, services, and ideas

Slide 9: Tell how people get to, from, or around your place. How are ideas exchanged?

Slide 10: Regions

- government boundaries
- similar physical conditions with surrounding area
- common cultural traits with surrounding area

Slide 11: Describe what could be considered the "regions" of which your place is a part.
